

KEN FORRESTER WINES

(STELLENBOSCH, WESTERN CAPE)

www.kenforresterwines.com

In 1993 the Forrester family came to the rescue, restoring the 17th century homestead, replanting the vines and developing wines of quality.

In 1994 the first wines were produced under the Ken Forrester label, and soon the award-winning wines were at the forefront of the Chenin Blanc revival. The grapes are sourced from vineyards - some of them more than 30 years old - in the cool Helderberg region of Stellenbosch.

The farming is in the hands of a small highly dedicated team. Ken does all the sales and marketing, travelling around the world promoting South Africa and their great wines, happy to pour any South African wine far from home and carry the flag. It's a tough job, socialising and meeting great people in the relaxed environment of food and wine but someone has to do it!

We practice sustainable, organic viticulture, we make our own compost, we grow winter cover crops between the dormant vines, we use ducks to control snails and insects and we manage yields according to the potential of the soils and the vines, we do not believe that stress is a good practice in the vineyards or in life!
