A high-quality white wine base (made on Kalmoesfontein) is the starting point. Then, a neutral grape-derived alcohol spirit is added to increase the alcohol to at least 18% ABV. Once this level of alcohol is achieved, 46 different ingredients are added. These ingredients include a variety of fruits, garden herbs, spices, a bouquet of various flowers, some roots, and barks for bitterness as well as the distinctive and unique Fynbos. Fynbos is the collective name for the 8,500 different species of plants that grow in the Cape Floral Region.

*Caperitif can be enjoyed like most aperitifs or vermouths simply with ice, or in many different cocktails. It's also a beautiful match for Cape Malay curry or spiced butternut soup.*
